is an exclusive professional mediator for successful communication to specialised IT-traders in Eastern Europe

This is your target group:

System houses, VAR, specialised IT-traders, with or without store, OEM manufacturers, wholesalers.

Target countries:

The exclusive professional mediator for successful communication to specialised IT-traders:

- Highest-circulation reaching up to 20.000 specialised traders in Eastern Europe
- Self studied addresses using its own call center
- high ad-click-rate through a restrictive circulation – normally only 1-2 email per day
- Free programming in HTML, and with Response-Coupon
- Optional Free counter for the openings
- All emails visible online www.pro-connect.at/east

With pro connect mail-X-press you will quickly send daily news to your target group. Your offers will be delivered through our database within a few hours to the direct receiver. Compelling arguments speak about pro connect mail-X-press:

On one hand our largest circulation in IT-Channel, leads are raised by our own call center, on the other hand the fact that normally we send 1/2 mails per day. This way the database stays fresh and advertising impact remains constantly high.

This is how it works: Send us your offer as HTML file and we will send it further through our mailing list. If you do not have appropriate HTML file, we will prepare it according to your preferences. For any usual size it's free of charge. HIGH CIRCULATION – Competitive prices
